About Us

Delivering Industrial Excellence Through Innovation & Precision

Ashirwad Plastics is proud to expand its operations with a state-of-the-art manufacturing facility in Solan, Himachal Pradesh. This advanced facility is designed to redefine standards in pharmaceutical packaging through enhanced quality, compliance, and operational excellence.

With a strong focus on innovation, customer satisfaction, and sustainable growth, we continue to deliver reliable packaging solutions that align with global industry standards.

Button: Read More About Us

Our Vision

To redefine pharmaceutical and industrial packaging through continuous innovation, uncompromising quality, and environmentally responsible practices while becoming a globally trusted partner in healthcare packaging solutions.

Our Mission

To deliver innovative, high-performance, and cost-effective packaging solutions that create long-term value for customers, employees, and stakeholders through ethical business practices, operational excellence, and continuous improvement.

Excellence at Every Stage

From advanced manufacturing to innovation, sustainability, and quality assurance, Ashirwad Plastics delivers reliable packaging solutions with precision and excellence.

Manufacturing

Equipped with advanced technology and modern infrastructure, we deliver high-quality packaging solutions with precision and consistency.

Sustainability

We follow environmentally responsible practices focused on efficiency, waste reduction, and sustainable growth.

Quality

Our strict quality standards ensure every product meets industry regulations and customer expectations.

Research & Development

Our R&D team continuously develops innovative packaging solutions aligned with evolving industry needs.

HOMEPAGE : Products Section

Section Heading Our Products

Section Subheading Innovative pharmaceutical packaging and dispensing solutions engineered for precision, safety, and regulatory compliance across global healthcare industries.

1. Ophthalmic Delivery Systems

High-precision ophthalmic packaging solutions designed for safe, sterile, and reliable drug delivery applications.

2. Nasal Delivery Systems

Advanced nasal dispensing solutions engineered for consistent dosing, patient convenience, and product integrity.

3. Tablet Containers & Closures

Secure and durable packaging solutions designed for safe storage and protection of solid-dose products.

4. Flip-Off Seals

Secure and tamper-evident sealing solutions designed to maintain pharmaceutical safety and sterility standards.

5. Measuring Caps & Oral Droppers

Accurate and user-friendly dispensing solutions developed for liquid pharmaceutical formulations.

6. Glass Droppers

Premium-quality glass droppers offering controlled dispensing and enhanced product compatibility.

7. Dispenser Pumps

Reliable dispenser pump systems designed for efficient and controlled liquid dispensing applications.

8. Trigger Pumps

Durable and ergonomically designed trigger pumps suitable for personal care and industrial applications.

9. Mist & Cream Pumps

Precision-engineered mist and cream pumps delivering smooth and consistent dispensing performance.

10. Caps & Closures

A comprehensive range of closures engineered for safety, protection, and product integrity.

PAGE 1 Ophthalmic Delivery Systems

Page Title Ophthalmic Delivery Systems

Page Subtitle Precision Packaging for Ophthalmic Applications

Ashirwad Plastics offers advanced ophthalmic delivery systems engineered to ensure sterility, dosage accuracy, and product safety. Designed for pharmaceutical-grade applications, our solutions meet stringent quality and regulatory standards for reliable eye-care packaging.

Product Overview Our ophthalmic packaging range is manufactured using high-quality pharmaceutical-grade materials within controlled manufacturing environments. Engineered for precision and patient safety, these solutions are ideal for ophthalmic formulations requiring contamination-free dispensing and secure closures.

Product Range

Available Sizes 5 ml | 6 ml | 10 ml | 15 ml

Available Components Dropper Bottles | CRC Closures | Tamper-Evident Closures | Tear-Off TE Closures

Key Features

- High-precision dispensing performance
- Tamper-evident safety systems
- Leak-resistant packaging design
- Pharmaceutical-grade raw materials
- Excellent dimensional consistency
- Sterile and contamination-safe solutions
- Regulatory-compliant manufacturing

Applications Suitable for:

- Eye Drops
- Ophthalmic Solutions
- Sterile Pharmaceutical Formulations
- Prescription & OTC Eye Care Products

Manufacturing & Quality Standards Manufactured in advanced cleanroom facilities with automated production systems and stringent quality control measures to ensure consistency, sterility, and compliance with international pharmaceutical standards.

Technical Specifications

Specification	Details
Product Type	Ophthalmic Delivery System

Specification	Details
Sizes Available	5 ml, 6 ml, 10 ml, 15 ml
Material	Pharmaceutical Grade Plastic
Closure Options	CRC / Tamper Evident / Tear-Off
Application	Ophthalmic Formulations
Compliance	GMP / ISO Standards

Why Choose Ashirwad Plastics?

- ISO & GMP compliant manufacturing
- High-volume production capabilities
- Advanced automated manufacturing systems
- Strong focus on product safety and precision
- Regulatory-ready pharmaceutical packaging solutions

Page Title Nasal Delivery Systems

Page Subtitle Advanced Nasal Dispensing Solutions

Ashirwad Plastics provides pharmaceutical-grade nasal delivery systems engineered for accurate dosing, product protection, and enhanced patient convenience. Our solutions are designed to support safe and effective nasal drug delivery applications.

Product Overview Manufactured using premium-quality materials and precision-engineered components, our nasal delivery systems ensure consistent dispensing performance while maintaining sterility and formulation integrity.

Product Range

Available Sizes 20 ml | 30 ml

Available Components Nasal Spray Bottles | Tamper-Evident Closures | Precision Dispensing Systems

Key Features

- Accurate and controlled dosage delivery
- Tamper-evident closure systems
- Leak-resistant packaging
- Durable pharmaceutical-grade construction

- Consistent spray performance
- User-friendly dispensing mechanism
- Compliance with pharmaceutical standards

Applications Suitable for:

- Nasal Sprays
- Saline Solutions
- Healthcare Formulations
- OTC & Prescription Products

Manufacturing & Quality Standards Produced in controlled manufacturing environments with advanced quality assurance systems to ensure reliability, sterility, and regulatory compliance.

Technical Specifications

Specification	Details
Product Type	Nasal Delivery System
Sizes Available	20 ml, 30 ml
Material	Pharmaceutical Grade Plastic
Closure Type	Tamper Evident
Application	Nasal Formulations
Compliance	GMP / ISO Standards

Why Choose Ashirwad Plastics?

- Precision-engineered dispensing solutions
- Regulatory-compliant manufacturing processes
- Advanced infrastructure and automation
- Reliable product quality and consistency
- Customer-focused innovation approach

PAGE 3 Tablet Containers & Closures

Page Title Tablet Containers & Closures

Page Subtitle Secure Packaging for Solid-Dose Products

Ashirwad Plastics offers durable and high-performance tablet containers and closures designed to protect pharmaceutical and nutraceutical products while ensuring safety, convenience, and regulatory compliance.

Product Overview Our tablet packaging solutions are engineered for moisture protection, durability, and secure storage. Available in multiple sizes and closure configurations, these containers are ideal for a wide range of solid-dose applications.

Product Range

Available Sizes 30 cc | 40 cc | 60 cc | 75 cc | 100 cc | 120 cc | 150 cc | 200 cc | 250 cc | 300 cc

Closure Options 28 mm CRC | 33 mm CRC | 33 CT | 38 CT | 53 CT

Key Features

- Superior moisture protection
- Child-resistant closure options
- Tamper-evident safety features
- Durable and lightweight construction
- Excellent sealing performance
- Pharmaceutical-grade materials
- Designed for high-volume applications

Applications Suitable for:

- Tablets
- Capsules
- Nutraceutical Products
- Solid Oral Dosage Formulations

Manufacturing & Quality Standards Manufactured using advanced automated systems and strict quality assurance processes to deliver consistency, reliability, and regulatory-ready packaging solutions.

Technical Specifications

Specification	Details
Product Type	Tablet Containers & Closures
Sizes Available	30 cc – 300 cc

Specification	Details
Closure Types	CRC / CT Closures
Material	Pharmaceutical Grade Plastic
Application	Solid-Dose Packaging
Compliance	GMP / ISO Standards

Why Choose Ashirwad Plastics?

- Wide range of packaging sizes and closures
 - High-performance pharmaceutical packaging solutions
 - Advanced manufacturing infrastructure
 - Regulatory-compliant production systems
 - Reliable supply and scalable manufacturing capabilities
-

INDIVIDUAL PAGE Flip-Off Seals

Page Title Flip-Off Seals

Page Subtitle Secure & Tamper-Evident Sealing Solutions

Ashirwad Plastics manufactures high-quality flip-off seals designed to maintain sterility, product integrity, and tamper-evidence for injectable pharmaceutical packaging. Our flip-off seals are engineered to meet the strict safety and quality demands of the pharmaceutical industry.

Section: Key Features

- Tamper-evident protection
 - Secure and reliable sealing performance
 - Pharmaceutical-grade quality materials
 - Available in multiple color options
 - Compatible with standard pharmaceutical vials
-

Section: Applications

- Injectable Pharmaceuticals
- Healthcare Packaging
- Sterile Drug Packaging

Section: Technical Specifications

Specification	Details
Product Type	Flip-Off Seal
Material	Pharmaceutical Grade Plastic & Aluminium
Color Options	Multiple (as per requirement)
Application	Injectable / Sterile Packaging
Compliance	GMP / ISO Standards

Section: Manufacturing & Quality Standards Manufactured in controlled environments using pharmaceutical-grade materials with stringent quality checks to ensure consistent sealing integrity, sterility, and compliance with international pharmaceutical packaging standards.

Section: Why Choose Ashirwad Plastics?

- ISO & GMP compliant manufacturing
 - Multiple color options available
 - Reliable compatibility with standard vials
 - Consistent product quality and dimensions
 - High-volume supply capabilities
-

Section: CTA Looking for Reliable Flip-Off Seals? Get in touch with our team for customized flip-off seal solutions tailored to your pharmaceutical packaging requirements. *Buttons: Contact Us*

INDIVIDUAL PAGE Measuring Caps & Oral Droppers

Ashirwad Plastics offers precision-engineered measuring caps and oral droppers designed for accurate dosage measurement and convenient liquid administration. Built with pharmaceutical-grade materials, our solutions ensure reliable, leak-resistant performance for a wide range of liquid medicines and healthcare products.

Section: Our Range *[Place product images here show measuring caps and dropper variants]*

Measuring Caps Graduated measuring caps designed for precise dosage delivery of syrups and liquid medicines. Easy to read, easy to use, and built for pharmaceutical-grade accuracy.

Oral Droppers Precision-engineered oral droppers for controlled liquid dispensing. Suitable for pediatric medicines, herbal liquids, and a wide range of oral healthcare formulations.

Section: Key Features

- Precise liquid measurement and dosage control
- User-friendly and easy-to-read design

- Leak-resistant construction
- Durable pharmaceutical-grade materials
- Suitable for multiple liquid formulations
- Hygienic and safe for oral use

Section: Applications

- Syrups
- Liquid Medicines
- Pediatric Formulations
- Oral Healthcare Products

Section: Technical Specifications

Specification	Details
Product Type	Measuring Caps & Oral Droppers
Material	Pharmaceutical Grade Plastic
Design	Graduated / Precision Dropper
Application	Oral Liquid Formulations
Compliance	GMP / ISO Standards

Section: Manufacturing & Quality Standards Produced in advanced manufacturing facilities with strict quality control systems to ensure dimensional accuracy, hygienic safety, and consistent performance across all liquid dispensing applications.

Section: Why Choose Ashirwad Plastics?

- Precision-engineered for accurate dosage delivery
- Pharmaceutical-grade materials for safe oral use
- Reliable, leak-resistant construction
- Suitable for a wide range of formulations
- Consistent quality and high-volume availability

Section: CTA Looking for Accurate Oral Dispensing Solutions? Connect with our team for customized measuring cap and oral dropper solutions for your product range. *Buttons: Contact Us*

INDIVIDUAL PAGE Glass Droppers

Page Title Glass Droppers

Page Subtitle Controlled Dispensing with Premium Finish

Ashirwad Plastics offers high-quality glass droppers engineered for controlled dispensing, precision dosage, and enhanced compatibility with pharmaceutical and cosmetic formulations. Combining functional performance with an elegant finish, our glass droppers are the preferred choice for premium product packaging.

Section: Our Range *[Place product images here show different dropper styles and cap finishes]*

Our glass droppers are available in multiple styles and cap finishes including white, silver, gold, and black making them suitable for pharmaceutical, cosmetic, and essential oil applications that demand both performance and aesthetics.

Section: Key Features

- Smooth and controlled dispensing performance
- Chemical-resistant borosilicate glass material
- Elegant design with premium finish options
- Leak-resistant assembly
- Precision dosage control
- Compatible with a wide range of formulations

Section: Applications

- Essential Oils
- Cosmetic Serums
- Pharmaceutical Liquids
- Beard Oils & Hair Care Products
- Aromatherapy Products

Section: Technical Specifications

Specification	Details
Product Type	Glass Dropper
Material	Chemical-Resistant Glass
Cap Finish	White / Silver / Gold / Black
Application	Pharmaceutical & Cosmetic Liquids
Compliance	GMP / ISO Standards

Section: Manufacturing & Quality Standards Manufactured using high-quality glass and precision-engineered components with rigorous quality inspection to ensure leak-proof assembly, accurate dispensing, and compatibility with sensitive formulations.

Section: Why Choose Ashirwad Plastics?

- Premium finish options for cosmetic and pharma use
 - Chemical-resistant glass for formulation safety
 - Reliable leak-proof assembly
 - Precision-engineered for accurate dispensing
 - Available in multiple styles and cap finishes
-

Section: CTA Looking for Premium Glass Droppers? Get in touch with our team to explore glass dropper solutions tailored to your product and brand requirements. *Buttons: Contact Us*

INDIVIDUAL PAGE Dispenser Pumps

Page Title Dispenser Pumps

Page Subtitle Reliable Liquid Dispensing Systems

Ashirwad Plastics offers efficient dispenser pumps developed for smooth, controlled, and hygienic liquid dispensing across healthcare and personal care applications. Engineered for long-lasting performance, our dispenser pumps deliver consistent output with every use.

Section: Our Range *[Place product images here show pump variants and bottle combinations]*

Our dispenser pumps are available in multiple neck sizes and output configurations, making them compatible with a wide range of bottle formats used in pharmaceutical, healthcare, and personal care packaging.

Section: Key Features

- Consistent and controlled dispensing output
 - Durable and long-lasting pump mechanism
 - Easy-to-use one-hand operation
 - Leak-proof functionality
 - Hygienic dispensing design
 - Compatible with a wide range of viscosities
-

Section: Applications

- Hand Sanitizers
 - Liquid Soaps
 - Pharmaceutical Liquids
 - Lotions & Creams
 - Personal Care Products
-

Section: Technical Specifications

Specification	Details
Product Type	Dispenser Pump
Material	Pharmaceutical / Personal Care Grade Plastic
Operation	Manual Pump
Compatibility	Standard Bottle Necks
Application	Healthcare & Personal Care
Compliance	GMP / ISO Standards

Section: Manufacturing & Quality Standards Manufactured with durable, high-grade materials and precision-engineered pump mechanisms, subjected to strict quality testing to ensure consistent output, leak-proof performance, and long product life.

Section: Why Choose Ashirwad Plastics?

- Reliable and consistent dispensing performance
- Compatible with multiple bottle formats
- Durable construction for long-term use
- Hygienic and easy-to-use design
- Suitable for a wide range of liquid viscosities

Section: CTA Looking for Reliable Dispenser Pumps? Connect with our team to explore dispenser pump solutions suited to your product and packaging requirements. *Buttons: Contact Us*

INDIVIDUAL PAGE Trigger Pumps

Page Title Trigger Pumps

Page Subtitle High-Performance Trigger Dispensing Solutions

Ashirwad Plastics manufactures durable trigger pumps engineered for efficient spraying and controlled liquid dispensing across industrial, household, and personal care applications. Built for comfort and performance, our trigger pumps deliver reliable operation with every use.

Section: Our Range *[Place product images here show color variants: red, blue, green etc.]*

Our trigger pumps are available in multiple colors and configurations, making them suitable for a wide range of liquid products across cleaning, healthcare, and industrial sectors.

Section: Key Features

- Ergonomic design for comfortable operation
- Smooth and consistent trigger action

- Adjustable spray nozzle functionality
- Durable construction for repeated use
- High dispensing efficiency
- Compatible with standard bottle necks

Section: Applications

- Surface Cleaners
- Home Care Products
- Industrial Liquids
- Agricultural Solutions
- Personal Care Products

Section: Technical Specifications

Specification	Details
Product Type	Trigger Pump
Material	High-Grade Plastic
Nozzle	Adjustable Spray
Color Options	Multiple (as per requirement)
Application	Household / Industrial / Personal Care
Compliance	ISO Standards

Section: Manufacturing & Quality Standards Produced using high-grade materials with precision-engineered trigger mechanisms and quality-tested for consistent spray performance, durability, and leak-proof operation under regular use conditions.

Section: Why Choose Ashirwad Plastics?

- Ergonomic and comfortable design
- Adjustable spray for versatile applications
- Multiple color options available
- Durable for high-frequency use
- Reliable compatibility with standard bottles

Section: CTA Looking for High-Performance Trigger Pumps? Get in touch with our team for trigger pump solutions tailored to your product and industry needs. *Buttons: Contact Us*

INDIVIDUAL PAGE Mist & Cream Pumps

Page Title Mist & Cream Pumps

Page Subtitle Precision Dispensing for Cosmetic & Personal Care Products

Ashirwad Plastics offers premium mist and cream pumps designed for smooth, precise dispensing and an enhanced consumer experience. Ideal for cosmetic and personal care brands, our pumps combine functional reliability with an elegant product finish.

Section: Our Range *[Place product images here show mist pump and cream pump variants]*

Mist Pumps Fine mist pumps delivering a consistent, uniform spray for facial mists, toners, setting sprays, and liquid skincare formulations.

Cream Pumps Smooth-action cream pumps designed for precise dispensing of thick formulations including creams, lotions, foundations, and serums.

Section: Key Features

- Fine and uniform mist dispensing
 - Smooth cream dispensing without clogging
 - Elegant design suited for premium packaging
 - Reliable and consistent pump performance
 - Leak-resistant structure
 - Compatible with a wide range of cosmetic formulations
-

Section: Applications

- Facial Mists & Toners
 - Skincare Serums & Creams
 - Lotions & Moisturizers
 - Beauty & Cosmetic Packaging
 - Hair Care Products
-

Section: Technical Specifications

Specification	Details
Product Type	Mist Pump / Cream Pump
Material	Cosmetic Grade Plastic
Dispensing Type	Fine Mist / Cream
Application	Cosmetic & Personal Care
Compliance	ISO Standards

Section: Manufacturing & Quality Standards Manufactured using cosmetic-grade materials with precision pump mechanisms, quality-tested for uniform dispensing, leak resistance, and compatibility with a broad spectrum of cosmetic and personal care formulations.

Section: Why Choose Ashirwad Plastics?

- Premium finish for cosmetic brand packaging
 - Consistent mist and cream dispensing
 - Leak-resistant and reliable construction
 - Suitable for a wide range of formulation viscosities
 - Scalable supply for cosmetic manufacturers
-

Section: CTA Looking for Premium Mist & Cream Pumps? Connect with our team to explore dispensing pump solutions for your cosmetic and personal care product range. *Buttons: Contact Us*

INDIVIDUAL PAGE Caps & Closures

Page Title Caps & Closures

Page Subtitle Secure Packaging Protection Solutions

Ashirwad Plastics offers a comprehensive range of caps and closures designed for product safety, sealing integrity, and regulatory compliance across pharmaceutical, cosmetic, and nutraceutical packaging. Available in multiple sizes and closure types, our solutions are built to protect products at every stage from production to end-use.

Section: Our Range *[Place product images here show flip-top caps, screw caps, CRC caps etc.]*

Flip-Top Caps Convenient one-hand open flip-top caps ideal for personal care, cosmetic, and household liquid products.

Screw Caps Reliable screw caps providing secure sealing for pharmaceutical, nutraceutical, and cosmetic containers across multiple sizes.

Child-Resistant Closures (CRC) Safety-first closures engineered to prevent accidental opening by children while remaining easy to use for adults.

Tamper-Evident Closures Closures with visible tamper-evidence to ensure product safety and consumer confidence from production to purchase.

Section: Key Features

- Tamper-evident options for product safety
 - Child-resistant closures available
 - Secure and leak-proof sealing performance
 - Multiple size configurations
 - High durability and material compatibility
 - Suitable for pharmaceutical and cosmetic use
-

Section: Applications

- Pharmaceutical Packaging
- Healthcare Products
- Cosmetic Packaging
- Nutraceutical Products
- Personal Care Products

Section: Technical Specifications

Specification	Details
Product Type	Caps & Closures
Closure Types	Flip-Top / Screw Cap / CRC / Tamper Evident
Material	Pharmaceutical / Cosmetic Grade Plastic
Size Options	Multiple (as per requirement)
Application	Pharma / Cosmetic / Nutraceutical
Compliance	GMP / ISO Standards

Section: Manufacturing & Quality Standards Manufactured using high-grade materials with precision tooling and strict quality control systems to deliver consistent sealing performance, dimensional accuracy, and regulatory compliance across all closure types.

Section: Why Choose Ashirwad Plastics?

- Wide range of closure types and sizes
- Pharmaceutical and cosmetic grade materials
- Child-resistant and tamper-evident options
- Consistent quality and dimensional accuracy
- Scalable manufacturing for high-volume requirements

Section: CTA Looking for Reliable Caps & Closures? Get in touch with our team to find the right closure solution for your packaging requirements. *Buttons: Contact Us*

About Us (Individual Page)

Section: Who We Are At Ashirwad Plastics, we are more than a packaging manufacturer. We are a team of innovators, engineers, and quality champions dedicated to serving the pharmaceutical industry with precision, integrity, and purpose. Since our founding in 2018, we have grown into a trusted name in pharmaceutical packaging driven by an unwavering commitment to quality, reliable service, and product safety at every level

Section: Our Journey Our story began with the manufacturing of primary plastic packaging and liquid dispensing solutions, starting with ophthalmic delivery systems. When the world faced the challenges of the COVID-19 pandemic, we rose to the occasion expanding our portfolio to include lotion pumps and sprayers as part of our contribution to India's fight against the virus and our support for the Make in India initiative.

Today, Ashirwad Plastics stands at the forefront of pharmaceutical packaging innovation offering nasal dispensing solutions, injectable seals, and a comprehensive range of specialty packaging components that uphold the integrity of life-saving medicines. We serve both institutional clients and international export markets as part of a growing pharmaceuticals group.

Section: Our Certifications & Compliance Our commitment to quality has always pushed us to set higher standards for ourselves. Our initial facility was built with ISO 9001:2015 and CE compliance. As our ambitions grew, so did our standards. Our new facility in Solan is proudly certified to:

- ISO 15378:2017 Primary Packaging Materials for Medicinal Products
- ISO 9001:2015 Quality Management Systems
- USDMF
- Canada DMF
- CGMP

These certifications reflect our readiness to serve regulated markets globally and our dedication to the highest standards of pharmaceutical packaging.

Section: Founder's Message

Manul Jain - Founder & CEO

"At Ashirwad Plastics, our mission is to lead the pharmaceutical packaging industry through innovation, quality, and an unwavering commitment to progress. We believe in the power of collaboration, fresh thinking, and continuous improvement to drive meaningful change in the healthcare sector.

In the years ahead, we remain focused on growing our capabilities, strengthening our team, and delivering packaging solutions that genuinely support the health and well-being of people across the world. Excellence and sustainability will continue to guide everything we do, as we work to make a lasting impact on the pharmaceutical industry and beyond."

Section: Our Values

Innovation We continuously explore new ideas, technologies, and approaches to stay ahead of an evolving industry.

Quality Quality is non-negotiable. Every product that leaves our facility meets the highest standards of reliability and compliance.

Customer Focus Our clients' success is our success. We work closely with every partner to deliver solutions that truly meet their needs.

Sustainability We are committed to responsible manufacturing for our customers, our communities, and the planet.

Section: Experience & Careers Behind every great product is a great team. At Ashirwad Plastics, we bring together experienced professionals who are passionate about what they do. We are always looking for talented individuals to join us, people who are ready to grow, innovate, and contribute to something meaningful.

- Ongoing professional development through training and education
- The opportunity to work on innovative, industry-leading packaging solutions
- A collaborative, positive work environment where your contribution matters

Market Sector Page (3 Individual pages)

PAGE Pharma Market

In the pharmaceutical industry, safety and trust are non-negotiable. At Ashirwad Plastics, these values are embedded in every product we manufacture. Through a deep understanding of our customers' needs and an unwavering commitment to quality, we have established ourselves as a trusted name in pharmaceutical packaging where reliability and durability are not just priorities, they are our promise.

Section: Premium-Grade Manufacturing Every product we manufacture is produced using top-quality, pharmaceutical-grade materials under strict quality surveillance and controlled conditions. We understand the critical role packaging plays in preventing contamination, leakage, and tampering which is why our products are thoughtfully engineered with these requirements at their core. Our pharmaceutical packaging range is available in multiple sizes, offering versatile solutions to meet the diverse needs of our clients.

Section: Trusted Across Applications Our efficient and robust manufacturing processes have made our products the trusted choice across a wide range of pharmaceutical applications including sanitizers, oral droppers, syrups, nasal dispensing systems, injectable seals, and more. We support the pharmaceutical industry in delivering safe, effective products to consumers with packaging that performs at every stage of the supply chain.

PAGE Cosmetic Market

The cosmetic industry is evolving rapidly, driven by rising consumer expectations and a constant demand for innovation. At Ashirwad Plastics, we help cosmetic brands stay ahead with a diverse range of packaging solutions that combine superior quality, aesthetic appeal, and functional performance ensuring your products stand out on every shelf.

Section: Tailored Solutions for Every Cosmetic Need Our expertise lies in delivering customised packaging solutions across a wide spectrum of cosmetic categories from skincare and hair care to beauty and oral care products. Our packaging is designed to support agile production, enabling our clients to bring products to market efficiently. Whether for liquids, creams, serums, or powders, our versatile range delivers the ideal balance of functionality and aesthetics.

Section: Where Design Meets Quality We believe great packaging does more than protect a product it elevates it. Every solution we design is crafted to deliver an exceptional consumer experience while reflecting the quality and identity of your brand. Our focus on aesthetics combined with rigorous quality standards ensures your products make a lasting impression in a competitive marketplace.

Our Expertise (Dropdown of 5 individual pages)

PAGE Manufacturing

At Ashirwad Plastics, manufacturing is more than a process it is a craft. Our state-of-the-art facility in Himachal Pradesh is equipped with modern machinery, advanced automation, and a skilled team committed to precision and quality at every stage. With minimal human error, stringent process controls, and a culture of continuous improvement, we deliver products that consistently meet the highest industry standards.

Section: Our Facility Established in 2018 with CE compliance and ISO certifications, our primary manufacturing facility has been built with a focus on efficiency, hygiene, and precision. The plant features PU Epoxy flooring for enhanced durability and cleanliness, fully automated production lines for consistent output, and strict operational protocols at every stage of manufacturing.

In January 2024, we expanded our capabilities with the launch of a world-class pharmaceutical packaging facility further strengthening our position as a trusted leader in the pharmaceutical packaging industry.

Section: What Sets Us Apart

Advanced Infrastructure Our manufacturing plant is equipped with the latest machinery and technology, ensuring precision, efficiency, and consistency across all production runs.

Customisation We understand that every client has unique requirements. We offer flexible, customisable manufacturing solutions to meet the specific needs of each customer.

Quality Control From raw material procurement to final product inspection, we maintain rigorous quality control measures at every stage of the manufacturing process.

Continuous Upgrades Our current facility is just the beginning. We are committed to ongoing investment in machinery, technology, and infrastructure because growth is built one upgrade at a time.

Section: Our Manufacturing Philosophy

Safety & Environment Environmental and safety responsibilities are integrated into every aspect of our operations. We are committed to responsible, sustainable manufacturing practices.

Quality We hold ourselves to the highest quality standards in the industry and we never compromise on them.

On-Time Delivery We understand that reliability matters. Our manufacturing processes are designed to ensure consistent, on-time delivery that our customers can count on.

Continuous Advancement Innovation drives us forward. Every day presents a new opportunity to improve, and we approach each challenge with dedication and a commitment to excellence.

Section: Our People We believe that manufacturing is as much about people as it is about machines. We foster a culture of teamwork, collaboration, and continuous learning empowering every team member to contribute ideas, take ownership, and drive excellence at every level of production.

Section: CTA Want to Know More About Our Manufacturing Capabilities? Get in touch with our team to learn how our advanced manufacturing infrastructure can support your packaging requirements. *Buttons: Contact Us*

PAGE Sustainability

Sustainability is not an afterthought at Ashirwad Plastics it is a core value that shapes every decision we make. We recognise that our choices today have a lasting impact on the world we leave for future generations. From responsible material sourcing to energy-efficient manufacturing, we are committed to minimising our environmental footprint and contributing to a cleaner, more sustainable future.

Section: What We Do for a Sustainable Future

Recycled Materials We prioritise the use of recycled and recyclable plastics across our manufacturing processes wherever possible reducing waste, conserving natural resources, and contributing to a circular economy.

Energy Efficiency Our manufacturing facilities are designed with energy efficiency at the forefront. We continuously work to optimise our processes and reduce energy consumption across all operations.

Waste Reduction Through efficient resource management and proactive recycling initiatives, we minimise waste generation during production reducing landfill contributions and improving overall resource utilisation.

Sustainable Practices From the responsible sourcing of raw materials to eco-friendly packaging solutions, sustainability is embedded into our day-to-day operations at every level.

Section: Our Commitment Beyond the Environment Sustainability at Ashirwad Plastics extends beyond environmental responsibility. We are equally committed to social responsibility and ethical business conduct ensuring safe working conditions, fair treatment of employees, and meaningful contributions to the communities we operate in. We believe that a truly sustainable business is one that creates positive impact across people, planet, and performance.

Section: Our Journey Forward Sustainability is not a destination it is a continuous journey of improvement and accountability. We hold ourselves to high standards, lead by example within our industry, and are committed to driving meaningful, lasting change. Together with our customers, partners, and communities, we are working towards a more sustainable world.

Section: CTA Want to Learn More About Our Sustainability Efforts? Connect with our team to understand how our sustainable practices can align with your business values. *Buttons: Contact Us*

PAGE Quality

At Ashirwad Plastics, quality is not just a promise, it is a guarantee. Our commitment to excellence is embedded in every product we manufacture, every process we follow, and every decision we make. From raw material sourcing to final product inspection, we leave nothing to chance in our pursuit of the highest standards of quality and reliability.

Section: How We Retain Our Quality

Strict Standards We follow strict quality management protocols throughout the manufacturing process, ensuring consistent durability, reliability, and performance. Our quality management system is ISO-certified a testament to our unwavering commitment to excellence.

Continuous Improvement We believe that quality is a moving target, and we are always striving to raise the bar. Through regular audits, employee training, and structured feedback mechanisms, we continuously identify and implement improvements across our operations.

Product Testing Every product undergoes rigorous testing before it reaches the market from material strength evaluations to full performance assessments ensuring complete compliance with industry standards and customer specifications.

Customer Satisfaction Our ultimate measure of quality is the satisfaction of our customers. We listen, understand, and act on customer feedback to consistently meet and exceed expectations with every product we deliver.

Section: Our Certifications

- ISO 15378:2017 Primary Packaging Materials for Medicinal Products
- ISO 9001:2015 Quality Management Systems
- US DMF (Drug Master File)
- Canada DMF
- CGMP (Current Good Manufacturing Practice)

Section: Our Quality Control Process Quality begins before production. We source raw materials exclusively from trusted, pre-qualified suppliers who share our commitment to quality and consistency. Throughout manufacturing, our facilities are equipped with advanced inspection and testing technology to monitor quality at every critical stage. And after production, every finished product is thoroughly inspected before dispatch because our standards don't stop until the product is in your hands.

Page Subtitle Redefining What's Possible in Pharmaceutical Packaging

Innovation is the lifeblood of Ashirwad Plastics. We believe that true innovation goes beyond creating new products, it is about solving real problems, meeting evolving challenges, and delivering solutions that make a meaningful difference. From advanced materials to smarter processes, innovation shapes the way we work, the products we create, and the future we are building.

Section: Fostering a Culture of Innovation

Research & Development Our dedicated R&D team continuously explores new materials, processes, and product designs pushing the boundaries of what is possible in pharmaceutical and specialty packaging.

Product Enhancement We are constantly improving our existing product lines to deliver greater performance, durability, and value. We leverage the latest technologies and customer insights to ensure our products evolve with the market.

Market Intelligence Staying ahead requires more than great ideas, it requires a deep understanding of where the market is headed. We invest in ongoing research and trend analysis to anticipate customer needs and stay ahead of the curve.

Section: Collaborative Innovation We know that the best ideas rarely come from one place. That is why we foster a collaborative environment bringing together teams from sales, engineering, operations, materials science, and supply chain to solve challenges together. Our cross-functional teams work through a structured innovation process, ensuring every solution is aligned with customer success and commercial viability.

Section: Customer-Driven Innovation Every innovation we pursue begins with the customer. We listen closely to feedback, understand pain points, and co-create solutions that address real, specific needs. By placing the customer at the centre of our innovation process, we ensure that every new development delivers genuine, tangible value.

Section: Embracing Emerging Technologies We actively explore and invest in emerging technologies from advanced automation and precision engineering to new material sciences to continuously elevate our manufacturing and product development capabilities. Staying at the forefront of technology means our customers always benefit from the most advanced solutions available.

PAGE Research & Development

Page Title Research & Development

Page Subtitle Exploring New Frontiers to Build Better Solutions

At Ashirwad Plastics, Research & Development is not a department, it is a mindset. Our dedicated team of researchers, engineers, and materials scientists work together every day to explore new ideas, test new possibilities, and develop solutions that push our products and processes forward. R&D is our commitment to always being better for our customers, our industry, and our future.

Section: A Look Into Our R&D Practices

State-of-the-Art Facility Our R&D facility is equipped with advanced tools, testing equipment, and resources to support cutting-edge research, prototyping, and product development.

Multidisciplinary Team Our R&D team brings together experts from materials science, engineering, product design, and manufacturing combining diverse knowledge to generate well-rounded, practical innovations.

New Product Development We are continuously exploring new concepts and formulations to develop products that address emerging market needs, regulatory requirements, and evolving customer demands.

Continuous Improvement Innovation is not a one-time event. We are committed to ongoing improvement in our R&D methodologies, processes, and outcomes, building on each breakthrough to reach the next.

Section: From Insight to Reality Our Development team translates R&D insights into practical, market-ready solutions. Through iterative prototyping, rigorous testing, and structured validation processes, we refine every innovation until it meets customer expectations, industry standards, and real-world performance requirements. No idea leaves our R&D process until it is ready to deliver genuine value.

Section: Process Innovation Our R&D efforts extend beyond product development. We continuously seek ways to improve manufacturing efficiency, reduce material waste, and enhance sustainability across our production processes leveraging R&D insights to drive operational excellence throughout the business.

Section: Collaborative Research We believe the best outcomes come from collaboration. We forge partnerships with industry peers, academic institutions, and technology providers tapping into diverse expertise and resources to amplify our capabilities and accelerate the pace of innovation.

Section: CTA Interested in Our R&D Capabilities? Connect with our team to learn how our research and development expertise can support your product development needs. *Buttons: Contact Us*

Global Presence

At Ashirwad Plastics, our global presence is a reflection of our commitment to excellence, quality, and meaningful partnerships. From our manufacturing base in India, we serve customers across international markets delivering pharmaceutical packaging solutions that meet the highest global standards. Our ambition is not simply to expand our reach, but to build lasting relationships and create genuine value for every customer, partner, and community we work with.

Section: Our Global Approach

Made in India, for the Globe We proudly manufacture our products in India to the highest standards of quality and compliance. Our commitment to innovation and precision ensures that every solution we deliver meets the trust and reliability expectations of customers worldwide.

Local Expertise, Global Reach Operating globally means understanding locally. Our teams are equipped with in-depth knowledge of regional market dynamics, regulatory environments, and customer needs allowing us to tailor our products and services to each market we serve.

Collaborative Partnerships Strong global partnerships are at the heart of our international growth. We work closely with distributors, agents, and channel partners across markets to expand our presence, strengthen customer relationships, and ensure reliable supply wherever our products are needed.

Commitment to Quality & Compliance Our quality standards do not change regardless of where our products are sold. Every product we export undergoes rigorous testing and certification to ensure full compliance with the regulatory requirements and industry standards of each market.

Section: Our Presence *[Place world map or regional presence graphic here]*

Ashirwad Plastics currently serves customers across key markets in Asia, with an active focus on expanding into Europe and North America. Our growing network of partners and distributors enables us to deliver consistent, timely, and reliable pharmaceutical packaging solutions across borders.

Section: Our People A Global Mindset Our global outlook is shaped as much by our people as by our products. We bring together a team of professionals with diverse perspectives, expertise, and cultural understanding, fostering a workplace built on respect, collaboration, and inclusion. This diversity of thought drives innovation, strengthens our problem-solving capabilities, and ultimately enables us to deliver better solutions for our global customers.

Section: Community & Social Responsibility Being a global business comes with a responsibility to give back. We are committed to being responsible corporate citizens supporting local employment, contributing to community development, and promoting environmental sustainability wherever we operate. Through our corporate social responsibility initiatives, we aim to create shared value and make a meaningful difference in the communities we are part of.

Section: Why Partner with Ashirwad Plastics Globally?

- GMP & ISO certified manufacturing for global compliance
 - Consistent quality standards across all export markets
 - Strong network of international distributors and partners
 - Customer-centric approach tailored to regional market needs
 - Reliable, scalable supply for international pharmaceutical brands

Page Title Career

At Ashirwad Plastics, we believe that great products are built by great people. As one of India's leading pharmaceutical packaging manufacturers, we are always looking for talented, driven individuals who are ready to contribute, grow, and make a real difference. If you are looking for a workplace that values your potential, challenges your thinking, and rewards your effort, you are in the right place.

Section: Why Work With Us

Learning & Growth We invest in our people. From financial support for job-relevant courses and training to hands-on learning opportunities, we are committed to helping every team member grow professionally and build a stronger career.

Work-Life Balance We believe in a healthy, balanced workplace one with personal freedom, a supportive atmosphere, and meaningful work that keeps you engaged without burning you out.

Employee Recognition Hard work deserves recognition. We run regular employee recognition programmes to celebrate dedication, reward performance, and motivate our team to keep pushing forward.

A Culture of Collaboration At Ashirwad Plastics, you will work alongside talented, passionate colleagues who are equally committed to excellence. We are a team that learns together, solves together, and grows together.

Section: What We Stand For Innovation, teamwork, and quality are not just words here they are the foundation of how we work every day. We offer more than employment; we offer the opportunity to be part of a company that is actively improving the pharmaceutical packaging industry and contributing to better healthcare outcomes across the country.

Section: What We Specialise In

- Advanced packaging for contact and aqueous paediatric injectables
 - High-quality plastic containers for tablet and capsule packaging
 - Customised pharmaceutical packaging solutions for companies across India
 - Environmentally responsible packaging strategies that reduce harm and waste
-

PAGE : New Product Development

At Ashirwad Plastics, new product development is built on a structured five-step process designed to ensure your packaging requirements are met with precision, quality, and full satisfaction. We offer expert consultation from the very first conversation to the final sign-off because getting it right matters at every stage.

Section: Our Process

Step 1 : Initial Expert Consultation Every successful packaging solution begins with a thorough understanding of your needs. In this first step, our experts consult with you on the type of product the packaging will hold, storage and transportation requirements, and any specific design considerations to be met. This ensures that your expectations are clearly understood and fully addressed from the outset.

Step 2 : Customised Design Development Based on your brief, our team of skilled designers develops a packaging solution tailored specifically to your requirements. Using advanced design software, we create packaging that is both functionally precise and aesthetically considered. Your close involvement throughout this stage ensures the design reaches its full potential before moving forward.

Step 3 : Prototype Creation & Approval Before any production begins, a prototype is created for your review. Our team works closely with you through any refinements until you are fully satisfied and ready to sign off. This step exists to eliminate surprises ensuring complete alignment between your vision and the final product.

Step 4 : High-Quality Production With the prototype approved, production begins. Our advanced machinery and high-grade materials ensure that your packaging is manufactured to the highest standards of quality, consistency, and design integrity. Our production processes are built to be efficient without ever compromising on the quality of the finished product.

Step 5: Comprehensive Quality Check Quality assurance is non-negotiable. Before your packaging leaves our facility, it undergoes a thorough inspection by our quality control team to verify that every unit meets our strict standards. We are committed to delivering products you can rely on every single time.

Section: More Products Coming Soon We are continuously developing new packaging solutions to meet the evolving needs of the pharmaceutical, cosmetic, and healthcare industries. Check back here for updates on our latest product additions as we expand our development pipeline.
